
Rovar

ROVAR play soulful & atmospheric Heavy Rock that's best enjoyed live and loud, banging your head in the middle of a crowd. At their live shows the boys give everything they've got, radiating infectious energy from the stage. Vintage vibes and lots of soul – **ROVAR** are the salvation for everyone searching for honest, handmade Rock music.

ROVAR formed in March 2018 when Paul and Luca were looking for a new drummer for their Bluesrock trio and met up with Bennet. There was an instant connection between the three and they soon developed a perfect symbiosis playing and writing together. Fueled by their determination to improve and develop their music further they started crafting new songs together and **ROVAR** was born.

After a few months and a lot of live shows, the band decided to hit the studio. The result was a live recorded EP that captures the unrestrained power and drive of **ROVAR's** live performance. **ROVAR** have played shows with bands like **Nightstalker**, **Komatsu** and **Zodiac** among others.

ROVAR'S debut album "Miles" featuring the singles "Hell" and "Way Out" is going to be released worldwide on August 5, 2022 with the first single dropping in April - stay tuned!
